

Tired of failing
Tired of being tired but tired of sleeping
Tired of apologizing for things I know ima do again
Tired of pretending...
Tired of acting like I have it all together...
Tired of it all falling apart.
Tired of barely holding on but too tired to let go!
Tired of being tired.
Tired of not living my life the way I feel I should....
Tired of being let down.
Tired of being told how I should react and tired of over reacting
Tired of crying!
Tired of not smiling...
Tired of not being able to shake the negativity...
Tired of not being positive.
Tired of being tired and too tired to be tired!
