

Breathe Vigor

Dance on the edge of articulation
could(n)'t there be way; way
without a pay down, say onto
this single hair hanging off of
a sock, a proposition: clean
is the end of the span
onto the bridge, can we
remain?

Desert night has the fear
but also the memory
of each possible out/come
slashed by the knife of the teeth
is the same as kissed by the point
of the sun.

Merit

when faced with the prospect
gold shills eye[lash] deck
captain, come away with us

ation-ific(ountry) numerally: math

as you like, fits feat: accomped
whilst-orm funding problem(winning)
fortunes are stayed on top of by
old smokier back(tombs) living death

when compound interns like boredom
the shell of the world freezes over again

Clever

It sounds good
not to the ear
to the eye
under the forehead
that sees only its reflection;
the light of the lucid
rays of one uni(verse)
perfection.

Un To View

Shades are not nuanced
to say the full spectrum
would take words more minutes
than there are in all the
compass rose petals
fallen from space
showering the land
with feathers and place.

Stultifigment

Watch closely

Pause, do not say

What you were thinking

Prior, legally, terms

Conditional meandering

Surreptitiously merge

I think you: unhanding

Beatific purge

Its goal is to stop

Because go is a sin

Furtively crop

Agricultural win

Food is consignment

Bacterial blob

I think this assignment

Will delve into sobs
