

## Around and Over

First make the smaller side  
Nice and short. Then to  
The large side a good  
Long length. Once  
You get there  
Then make  
Sure you  
know  
big over  
little and under  
them both. Once you  
Get here you just have to  
Remember go over the top and  
Back around to hop. Then after that  
The bunny comes up through the top hole.  
Then back down the front into a smaller better  
Hole. When you have finished its time to adjust  
Just make sure it's good and straight this he said is  
A must. If you want the ladies to say he is one to  
Trust. He is nice and clean cut and he is all  
Straightened out. His father taught him  
Well and he's not one to throw out.  
Now I tell my own son the  
Thing that he must do  
To make the girls  
Say to him  
Nice tie  
You.
