

Sidelines No More

On the sidelines no more,
Where I use to hang,
I was once under the impression that was my domain,
Scared to live life, refusing to enter the game,
When I look back now, that's just insane.
Especially when I know I have potential for fame,
I have too much within to just stay in one lane,
I will put myself out there allow others to know my name,

Once I made this decision it was time to free,
I could no longer hide what was on the inside of me,

Finally, I was able to release negative thoughts,
For the ego cannot stop what God has wrought,

Unsure of my future due to low self-esteem,
But as of today, I will to join the team,
No longer do I settle for less or demean,
I now stand up am chase my dreams.

Helping Hand

I am here to serve I will meet you where you're at,

Form doesn't matter man, woman, dog or cat

Even a rat,

Maybe a snake

Tell me can you relate,

Can you agree to participate

We're not here to hate,

Just elevate,

Appreciate,

And demonstrate love.

Be a part of the divine plan,

Be a helping hand,

Lifting up your fellow man,

Assisting him to stand.

True Connection

Hello is anybody listening? Can anybody hear me?
I'm on a path searching for answers clearly, I cannot see,
I'm trying to understand this sudden attraction,
That sets in motion a chain reaction,
Releases great feelings of satisfaction,
Heart mind and body at once ready for action,
The heart beats faster gains full traction,
The mind fills with anticipation,
Feet steady themselves ready for racing,

The mind then clouds with confusion,
Decides to ask the heart is this something I'm choosing,
Although I'm not refusing,
Just curious I guess,
This feels totally different, feels like I can rest,

The heart spoke to the mind,
you can finally see,
Everything is alright you just feel me,

The only thing is to release and let go,
Now that you know,
Let it be so,
For this is the way in which I will grow,
Let's see what happens when I take control,
I am so happy that you found your way,
I always knew this would happen one day,
All I pray,
Is that you allow me to stay,
You see this is something that was meant to
Me inside of you, You inside of me,
You opened the door,
I turned the key, this was the
Missing link wouldn't you agree,
Now were both here our love will never end,
A true moment when our romance can begin.

The End

At the end of the day meaning, end of your life,
What would they say did you illuminate,
Penetrate,
Castrate,
Evacuate,
Emancipate,
Did you cause a quake,
Charge a rate
Defend the snake,
Learn to hate,
Eliminate,
Become great,
Regulate,
Start late,
Something to think about while there is still time to get it straight.

Hide and Seek

Man is woman, woman is man,
Do you want know how to understand,
The universe had a divine plan,
Before putting us on this beautiful land,
What is the answer you demand,

Open your mind I'll give you the key,
The Testicles are outside ovaries,

Look at a picture,

I will let you decide, but really and truly

This is where Yin Yang hide.
