

## **One of a Kind**

With me, you will realize  
These precious moments  
Bring us centuries of bliss  
No one cares like my heart

Every part of me wants you  
So, merge with my soul  
Moving in this raw  
All we will have to know

You are one in this desire  
That I need tonight  
Because I can not sleep  
Till I have you in my arms

Making sweet love  
Take away any loneliness  
So, I can think again  
And live this life

And give us this moment  
Forevermore  
Time stops till I let you know  
You are my one of a kind

## **Oh, Happy Days**

Here I go  
Down that borough  
Some days I take it  
Some days I throw a fit

But I want things  
To spread my wings  
But learning to fly  
As I stand by

You told me cope  
Do not give up hope  
When I am in the darkness  
Let me shine with alertness

Even if it takes forever  
I can see you whenever  
I may lose light  
But the sun will rise bright

When love is blind  
Show me a sign  
I will see oh happy days  
You are pulling me always

This fire of burning light  
Always we are burning bright  
We found our place  
We grew with grace

Where flowers bloom  
Even in darkness, the sun shines through  
I feel so close to you  
We will be together forever too

## **A Radical Life**

I started innocently  
But life taught me a radical life  
Always feeling alone and afraid  
As I stumbled through the way

Could you have told me I had a choice  
I would have read the rules better  
Or listened when you told me the little words  
How the lies have dressed me up

Only to leave me naked in the truth  
And the wind keeps my head high  
So, cracks in the sky show light  
To keep hell down through its ground

I will not change who I am  
For all is known is who I am  
The rain will be my friend through the storm  
No fight is left leave pain behind

The unfiltered words spoken  
Speak loads to clear and heal all scars  
Giving yourself away may be the fault  
But pay the price no mistake is without a cost

Do not candy coat the wonder  
Cut loose the rage and love  
I only wish I knew the darkness was over  
People pretend but no one knows

And perception is only in the eye  
But live like your life is on the line  
I started innocently  
But life taught me a radical life

## **Alive**

Could you care?  
I wonder if you are even there  
Would you miss me if I died?  
How empty I feel inside

I am already dead  
Only to want to fall again  
I feel you falling away  
I feel so lost

We are no longer the same  
How did we get so broken?  
How can we resuscitate this life?  
Show me the way

We said forever and ever  
Even with all these scars  
Mend our broken hearts  
Leave the dark behind

God help us fix the undone  
Out of the dark and into the light  
No longer the lost  
And we will keep each other alive

## **To Be a Soul Mate**

Deep down we have known each other forever  
Having lived a hundred lives  
Together but still wanting more  
Decisions made to drive us further

To do away with the cruel world  
To make a cool world for you and I  
Because this is all a learning curve  
No rules to ease the pain

For what it is worth I will die with you  
A hundred times  
And a hundred times more  
I hope I will always have you in my mind

So, I know I can find you every time  
Because I know how you are designed  
My soul mate  
We will dance till the sun goes down

Lay your head on my chest  
The safest place is next to my heart  
Deeper the love of everyday  
Life will go on for us always

By your side, you will find me  
Every season my existence in your eyes  
You will have me  
Soul mate
