

Rock Bottom

Tears in my eyes,
my, my, my,
the happy times,
joy , and contentment in me
needs to arise,
I've hit rock bottom,
lying next to the dust,
looking into the eyes
of the purple skies,
a year ago,
I would have never
dreamed of tasting,
such a bitter demise,
I had to go low
to find my spirit,
now when the adversary
comes I can hear it,
friends are not at
the bottom,
family not in sight,
sometimes you need to be pushed,
in a ring, with the lions
for a one on one fight,
bruises, sweat and tears,
over the years will
bring everything to
the light, whether
wrong or right,
remember if you are
at the bottom,
it won't be long before
things get better and
you see the light.

Revenge,

I am so upset with you,
but I don't think I can ever
disconnect from you,
my feelings are so hurt,
remember you were the one
who said I love you first,
years down the line,
you ripped out my heart,
and ruptured my spine,
How could be so foolish
to invest more
in this relationship,
you don't deserve anymore
of my time,
when we first met,
I was so in love,
I had to make you mine,
but now we are in a rough place,
and you are complaining you need
your space,
I thought I was first, and
there was no need for
a race,
now you are gone without a trace,
why do you treat me like
such a disgrace?
the picture is crystal clear,
the music is what i can't
seem to face,
I am finally ready to
show how
sweet revenge
really taste

Too Good at Goodbyes,

On my way home from home depot,
I am eager to cover up the profession of love wall,
I take delight in ignoring your voice,
and rejecting your calls,
I am really , but I have to
be strong and stand tall,
I always thought we were built on love and
grace, why wasn't I warned we would
experience such a great fall,
so much infidelity, betrayal,
and lust, this break up has
brought me nothing but disgust,
and broken trust,
How could you do this to us?
I loved you so much, remember those
days, I would walk in the rain and
catch the bus?,
I pick my battles with you,
I rarely fuss,
but, this time you messed up
It's goodbye,
leave the ring, take all
your things, and be
ready to bite the dust,
we are done for good,
no more making up
for us,

Greatness

We all have greatness,
down on the inside,
but we have to allow life
to take us on a ride,
to pull out, the very things
that lie mystery, and try
to hide,
the pain is birthing a gift
in disguise,
will we be like the
soaring eagles and
still rise?
In this life we have
to go after our dreams ,
we will eventually reach greatness
and reign supreme,
we are enough,
we are worthy to be crowned
king and queen,
don't let anything stand in between
you and your dream,
have a coffee,
with a few sugars
and a few creams,
shift your mind
to do great things,
when greatness calls
you will know the ring
it's time we go after
greater things

Focus

I'm pulled in many directions,
Its gets harder and harder,
to choose one section,
my heart wants to date,
my mind wants to wait,
Do I give love another try
even if the outcome results
in a tale of twisted fate,
save my heart from
anymore hurt,
before it too late,
I don't think
I've ever
had one good date,
I want to be your true catch,
not just the hook and bait,
but see setting the bar high,
today is a good enough,
reason, the cute
girls will push you away,
what's it going to take
to make the cute ones stay?,
I have to stay focus,
distractions are like the
tree of the locus,
maybe love is a hocus pocus,
scary but seat snatching
somebody please remind
me to stay focus
