

Sincerely Gen Z

We are Gen z

We were born into a broken world

Born in a time of sadness, shock, and heightened tensions

9/11

The drastic changes that were a result of this event is the only world we know

We are gen z

We grew up during the peak of technology evolution

Yes we rely heavily on our

Phones

Laptops

Tablets

No we don't let them control us

Our thoughts, vocabulary, and knowledge are not limited to 180 characters

Yes we shorten words and phrases

It does not mean we do not know how spell properly

We are gen z

We realize that google is not a university

We know the difference between a reliable source and fake news

We have

Minds

Ideas

Opinions of our own

We are gen z

We grew up in a world where school shootings were at an all time high

Sandy hook

Marjory Stoneman Douglas

Santa Fe

We are gen z

We are working to minimize:

Racism

Xenophobia

Homophobia

When previous generations let them flourish

Our generation is not responsible for putting a

Racist

Xenophobic

Homophobic

in charge of running our country

But we will fix it
Our generation is not responsible for killing mother earth
Filling her with

Trash

Toxic waste

Chemicals

But we will fix it

We do not ignore

Facts

Science

Research

We understand the dangers of climate change

And we will fix it

We are gen z

We are not responsible for the global pandemic that is stunting what is supposed to be our “peak years”

We will

Overcome

Recover

Persevere

Thank you

Silent generation

Baby boomers

Generation X

And all the generations before

You are the reason we are standing here today

We realize it is your job to criticize the current generation

It makes us

Stronger

Smarter

Resilient

And one day you’ll thank us too

Next time you use the phrase “**this** generation” as a negative connotation

Remember you are not the same person you were at

13

17

22

This is not to say we are too

Childish

Stupid

Naive

And thank you millennials

For helping us lead the charge to make the world a better place

We may be young but we are

Educated

Informed

Cultured

We are gen z

We too will

Learn

Grow

Make mistakes

Our generation is not perfect, but neither is yours

Sincerely,

Gen z
