

Lead Me Not Into Temptation

Lead me not into temptation

Don't let me slip far down

Help me to get back up and turn my life around

Lead me not into temptation

Steer me far from there

And in the direction of your love

So I can find you there

Through helping others and staying strong

I will find my way along

And through patience and compassion

And loving you in fashion

I will find who I want to be

I will find the you in me

And the me in me and

The you in them

Help me father to be a friend

And not to judge and not be scared

And to be strong and to be prepared.

And to lead but not follow,

Except for follow you

And to know the difference between

Temptation and the truth.
