

## ***Feelings of Longing***

### **Since I left**

Who is holding your hands,  
caressing your breasts?

Since I left.

Who is looking into your eyes,  
feeling your silky, warm skin?

Since I left.

Oh the lover of mine

Didn't you say?

"I am your faithful servant".

What has changed?

Since I left.

### **I want to fall in love again**

"I want to fall in love again", she said

"Taxi, taxi", she said while waving her hand

"It's been a long time", she said

"Stay warm", she said

"Feelings, I want to feel feelings", she said

"People, people! She needs a taxi", she said

"Wait, don't leave", she said

"Dinner table must be ready", she said

*Feelings of Longing*

**My biggest fear**

You asked me

“What is your biggest fear, mama?”

I said, “To die too early”

Not to see you grow

Go to school

Braid your own hair

Have children of your own

Grow your own garden

Age

We both wept...
