

Death

Time travels fast and fast is slow
Life revolves around the sun
A highway full of burn
Seasons go hence reasons
Beginning ends
Dreams fade away
So far away
Fame and fortune
High and dry
Eyes with Cry
The Game is over
An end has come
Forever is never
Even for a diva
Be brave
So fall away
Once a happy family
Now a cemetery
An only son kissed by death
Macbeth !
I bet joy is no more
Brunt of pain
Dead brain
Tears evermore
Swimming on our cheeks
A sweet young gone
Far from fine
Sorrow grows
Tomorrow shows
Why us ?
Unending questions
Endless lamentations
Like Jeremiah
Lying-in-state
Here comes men
Foes & Friends
The dead is helpless
Powerless
Dreams engineer kissed death
Pictures & memories
Enemies in companies
Here to see your falling

Goodbye forever son
The unexpected always happens
You left too soon
Boom !
You didn't cheat nature
Walls of our hearts are broken
Our Taste buds gone sour
Bouquets of flower
Anger & bitterness
Weakness & deadness
We are still in denial
Your phone number is on dial
Just dead silence
Oh you're no more
The snatcher of life
Plucked you out of our family tree
Your future wife eyes' are fierce
As fire
Streams of tears
Echoes of fears
No more meals
We're alive but dead
