“Happy Go Lucky”

Happy go lucky, that's what am

Hopefully, I'm not too hard to understand

I'm not Physics paper

But I have but I have Living My Own Theory without paper

Printed on my soul

I'm happy, go lucky

Or am I happy going to lucky

Am I low key

Like piano

But my voice is baritone

I feel so alive when I bone

With a hot woman

I'm a happy man

H is happy

A is for Aleman

That's my last name

I'm on top of my game

Like I'm hovering above a stadium

P is pretty day

The second p is for prettier day

Let me ask y'all what more can I say

In fact, I can say

That I'm happy in Español

Soy contento

C is careful

O is on the clock

N is for night when I feel most alive non-stop

Like a corporate airplane for a corporate airplane company

T is for taunting

E is for either brunettes, blondes or redheads and I don't discriminate

And I don't play games

Stay away from lames

Hot like flames

N is for names

T is for tamed and disciplined like a tiger in a circus show

O is for Occipital

When I use my el cerebro

Woman are bum-rushing me

And all on me

Like green on weed

I have so much speed

Words are coming out faster than the flicker of a lightning bolt

I have such a great personality, that I practically could have a cult

Eventually

Never say never

Never say never

Ever say possible

Ever say possible

Because anything's possible

So many activities

That me

And my future wife are going to do

I hope that I'm still lucky because I'm Irish too

It's just the truth

I'm a relatable

Practical

Down to earth type of guy

And there is no limit not to the sky

And not even to outer-space

Go against me is like trying to impossibly jump over the highest fence

Or the Great Wall of China

Or is this The Great Leap Forward

But I'm a capitalist

And I'm all races

Therefore, I am also Asian.
