

## I Have Three Words For You!

**I have Three Words for you!**

**Awe-trocity, Auto-trocity, Dys-trocity:**

We need some new words  
Indeed, a new concept

Words that define the audacity of one people to enslave another,  
Then reluctantly, with military resistance,  
free them

Free them, their children, and their children's children  
to low-level, no-count jobs subsidized by welfare and one-night-at-a-time shelters

Then  
tax their income and use that tax money to pay politicians

Politicians who create and endorse systems that police, control and cheat them  
Politicians who use that same tax money to enhance their own lives  
*and* the lives of refugees from other nations  
into places where those now free descendants cannot buy, cannot rent  
nor visit for recreation,

Politicians whose progenitors broke the bonds of black families for gain  
Politicians who define 'family values' today

Let me first suggest **Awe-trocity**: An awesomeness of action...  
The unthinkable ability to hold a person down  
Physically,  
Financially  
And emotionally; then blame him for being down.

It is an **Awe-trocity**  
to deny good jobs to black skins  
then crowd the dark ones into high density compounds  
Give them minimal public sanitation and no beautification  
then blame them for being angry and untidy

It is an **Awe-trocity**

that after years of being angry and untidy

The dark ones can watch a nation that cannot/will not clean all its streets,  
install telescopes in space and vehicles on the moon.

It is an **Awe-trocity**

to expect the dark ones to be happy about putting people on *any* new planet  
knowing how we have been treated on this one.

It is this same awesomeness of action we see

when the government sends the children of the enslaved

*and* the currently disadvantaged, across the world  
in large, *large* numbers, to wage war...

to wage war to protect a country that will not feed or house them

should they miraculously escape death and find a way back to shores  
without shelter.

Let me also suggest **Auto-trocity**

The thoroughness of self-deceit...

There is a special depth of horror

When large numbers of people,

and their children

believe in their own emotional poverty,

lack of potential and loss of hope to the extent that

they no longer strive for self-sufficiency.

When a group gives their time to the control of sponsored entertainment,  
for which they must pay;

When a group pays money for clothing that costs too much

shows their private parts

*and* shackles their ability to walk;

When there are few reliable local sources for nutritious food

When meager dollars earned find few legal avenues to turn over

within a shared cultural identity

**Auto-trocity** is the best descriptive word.

*All* of this is **Dys-trocity**...

The apathetic allowance of **Awe-trocity** and **Auto-trocity** to exist.
